

REINSURANCE (TREATY)

The personalised service of the reinsurance division is offered to UK and International insurance and reinsurance entities and has been successful in capitalising upon the comprehensive travel that takes place by the officers of the company, working with clients globally.

The division specialises in all forms of Marine and Non-Marine Reinsurance and has extensive experience in the review, design and placement of treaty reinsurance protections which often require tailor-made arrangements to address the particular needs of a client.

With a flexible team, and an in-depth knowledge of the territories in which it operates as well as of the UK and international reinsurance markets, the reinsurance division has the experience,

expertise and determination to offer an excellent level of service across all aspects of a client's business.

The division promotes the ongoing, in-house, development of computer software models which allow for an in-depth analysis of a client's portfolio and protections and, without any obligation, is able to offer a full review of existing or proposed reinsurance arrangements to prospective clients.
